Welcoming ALL new patients regardless of insurance or ability to pay!

Mountain Health Center

Mountain Health Center became a Federally Qualified Health Center in 2013. We are a non-profit community health center. We serve both the acute and chronic care needs of our patients, focusing on a goal of health, not simple absence of disease.

Mountain Health Center is a medical home where people can engage in coordinated and comprehensive health care which is important to our practice.

Comprehensive care plans include patient generated-goals and specialty referrals. We take care of you when you are ill and work with you to achieve health, recognizing that your health care demands **your** involvement.

Mountain Health Center offers translation services for our patients as well as Telecommunications Relay Service (TRS) and American Sign Language.

After Hours Holidays/Weekend Coverage

A provider is always available after hours. We share in a call schedule with the physicians of Middlebury Family Health, and the on-call service is managed by Porter Medical Center.

For care outside of regular business hours, call us at **(802) 453-5028** and choose the option to be directed to our on-call service.

In extreme medical emergencies, please call 911.
